SOFA PRODUCT

The commercial group "Jahan Sofa" has been active for years in the production and supply of wooden, metal, or composite raw sofa frames, as well as various types of comfortable, classic, and royal complete sofas, bedroom sets, and office furniture including various tables, chairs, and filing cabinets for sale and delivery worldwide. Jahan Sofa group, by employing skilled workers and craftsmen, has been able to produce and sell various sofas and sofa frames in the country at the lowest prices and best quality. This group has always focused on customer orientation, product quality, and innovation in designs and colors, which has made it one of the most reputable exporters of various sofas and sofa frames to different countries. This commercial group is constantly developing its products, adding variety, and increasing the quality of its products according to the needs and tastes of its customers. Since the products of this company are directly produced or sourced from professional manufacturers in this field, they are offered at very reasonable and competitive prices.

In the past, people paid less attention to the presence of furniture in their homes and work environments, but today household and office furniture has become an integral part of these environments and even hotels, hospitals, and commercial spaces. In furniture production, before foam, sponge, and fabric covering are added, the sofa is just its frame. Therefore, the appropriate choice of wood type and its quality has a significant impact on the strength and final quality of the sofa. Since the sofa is a product that is often used for several years, the excellent quality of its various components, especially the sofa frame, is very important. Therefore, the better and stronger the frame, the longer the sofa will last.

Home sofas from the well-known brand Jahan Sofa typically include comfortable, classic, and royal sofas along with coffee tables and side tables. Dining tables and bedroom sets are also part of this group. The sofas come in the form of 2 or 3-seater sofas, single-seater sofas, and host chair.

Among the suitable and stylish furniture for residential homes, classic furniture, especially royal or steel furniture, stands out. The main component of these popular and beloved Jahan Sofa brand sofas is made of wood and fabric. The foam and sponge used in classic and royal sofas are significantly less compared to comfort sofas. These types of sofas are constructed using more wood, which gives them a special appearance with intricate carving. The woods commonly used in these types of sofas are walnut and beech.

Another suitable furniture for residential homes is comfort furniture. This type of furniture from the well-known brand Jahan Sofa has gained many fans due to its reasonable price. Their 2 or 3-seater sofas add a beautiful and stylish arrangement to the interior of the house, providing a pleasant comfort while maintaining simplicity. In this type of furniture, and indeed all types of it, the quality of the fabric also plays an important role in the comfort and durability of the final product. In the Jahan Sofa collection, a wide range of fabric types including material, design, and various prices are available to customers.

Office furniture, another highly practical product from the Jahan Sofa brand, includes various managerial, employee, and executive desks and chairs, as well as filing cabinets and various conference tables. The material of these sofa frames is mainly made of various types of wood and sometimes metal.

When a customer enters a furniture store or gallery to choose furniture, they have limited samples available to select their desired model, style, and color of the sofa. By visiting the websites and social media channels of the Jahan Sofa collection, customers can access a wide range of furniture types including various models, colors, and materials, and find the best furniture at the best and most suitable price.

In the field of exports, Jahan Sofa company is also prepared to handle all stages of work including material procurement, production, preparation for transportation, loading, and delivery to the destination country through various methods such as land, sea, and air with desired quality and minimum cost according to customer requirements and under their supervision. The experienced team of Jahan Sofa proudly guarantees that each product will be provided with your desired quality and at a competitive price.
